

# Mutual Respect

We understand how our behaviour affects our rights and the rights of others in our school

In our school community we use the School Mission and Virtues to show mutual respect. We know that we have the right to be safe, the right to be heard and the right to learn. We know our rights must also mean that others in the school have these rights.

# Tolerance of Those of Different Faiths

We enjoy learning about different cultures and faiths from around the world

As a Catholic school we recognise the importance of religion within our lives. We know that people have different faiths to ours. We learn about these and try to understand how such religions impact people's lives. We study world faiths in RE lessons, we see how faiths are observed in the Cultural Calendar and we study other cultures in our National Curriculum learning.

Catholic Primary School

# British Values

# Democracy

We have a say in what happens in our school

Our children are Ambassadors for the school. They take the lead in how the school support specific areas including Charity Work, Learning, the Environment and Worship. This is further supported by the House system.

We understand how laws are made in Parliament

The children have a clear understanding of the rule of law within the school. They understand, follow and shape the rules within the school, such as we are a walking school and awesome actions. The children also take part in a voting process each year

when they elect the Lead Ambassadors.

# The Rule of Law Individual Liberty

We can make some of our own choices in school

Choice is a strong part of our community. The children choose specific aspects of their day including the roles they hold within the community such as being ambassadors and the charities that they support. The school mission and virtues talk about behaviour choices and vision for the future. These choices are understood by the children to influence their futures.
